### **ŠKOLA – MESTO ELITIZMA ILI HUMANIZMA U SPORTU**

Školski sport pozicioniran je kako u zakonskim rešenjima koja oblikuju vaspitno-obrazovni proces osnovne i srednje škole, tako i onim koja se neposredno bave pitanjima sporta. Značaj koji škola ima prepoznat je u činjenicu da je to mesto u kome sport ima masovni i humanistički izraz zasnovan na nekomercijalnoj osnovi. Obzirom na ogromna višedecenijska ulaganja republičkih i pokrajinskih institucija, a posebno Grada Novog Sada u otvorene i zatvorene objekte za realizaciju nastave fizičkog vaspitanja (sporta), kao i visok stručno-pedagoški nivo osposobljenosti kadrova koji neposredno izvode navedenu nastavu s pravom se postavlja pitanje «DA LI JE ŠKOLA MESTO KOJE PRUŽA JEDNAKE MOGUĆNOSTI U SPORTSKOM STVARALAŠTVU DECE I MLADIH».

U traganju za odgovorom na postavljeno pitanje ukazano je na broj učenika koje karakteriše loše držanje tela, broj apstinenata – učenika oslobođenih od nastave fizičkog vaspitanja (sporta), kao i broj učenika aktivno uključenih u sportske aktivnosti škole i klubova na teritoriji grada.

**Ključne reči:** školski sport, školske sekcije, sportski klubovi

### **SCHOOL – PLACE OF ELITISM AND HUMANISM IN SPORT**

School sport is defined both by legal solutions giving form to the educational process of primary and secondary schools and by those dealing with sport issues directly. Importance of school is indicated by the fact that it is the place where sport is realized within a mass-like and humanist framework with non-commercial base. In view of high decade-long investments of institutions of the Republic and Province, especially the City of Novi Sad, into outdoor and indoor facilities for practicing physical education (sport), as well as high professional and educational level of the personnel directly involved in this process, one can rightly ask a question: IS SCHOOL A PLACE OFFERING EQUAL OPPORTUNITIES FOR SPORTS ACHIEVEMENTS TO CHILDREN AND YOUTH?

Searching for an answer to the above question, the paper gives indication of a number of pupils with bad body posture, a number of abstainers i.e. pupils relieved from classes of physical education (sport), as well as a number of pupils actively involved in sports activities at school and clubs of the City.

**Key words:** school sport, school teams, sport clubs
